Subject: RE: WA Hydro permit and FS for review

I'm done with my review. I didn't have any comments/edits on the permit but did have some on the fact sheet.

Here's the correct link. I'm in the doc adding to the appendices, but you should be able to get in. Lmk if you have problems.

Jenny: When I clicked on the link to the fact sheet, the link was to the Dalles permit. Can you re-send the fact sheet link?

Thanks!

Hi Susan and Courtney,

While we're waiting for the 316(b) decision from EPA HQ, I'm getting the permits to be as tight as we can so that we can go out for public comment as quickly as possible when we get a decision.

There are several issues that have been raised by Ecology and the Corps that have resulted in changes to the pre-draft permit and FS you reviewed. I'd appreciate your review of The Dalles Lock and Dam public draft permit and Lower Columbia River Fact Sheet. Everything new is in tracked changes. Martin and I will take your comments and edits and apply them to the other 8 permits. I'd appreciate comments by January 7. I'm setting up a placeholder meeting if we need to discuss anything – otherwise, I'll cancel. Thanks!
